

ALEYA MOUSAMI SULTANA

MY AIM

As a teacher at the University, my primary aim is not only to develop my knowledge and skills through classroom teaching, but also to extend the horizons beyond the periphery of the class room and to help the students to flourish by developing their fullest potentials. My primary motto is that the students should not feel bore in the class room, rather I want to make the teaching more interesting and dynamic. Further, I want to develop myself by constant research works in my domain of knowledge.
